## Kiosk At Work: Surveys

Patient Satisfaction Surveys provide vital feedback to your hospital. With the PatientWay Kiosk surveys are easily collected from your patients. Create, start and conclude patient surveys at the click of a button. Responses are stored in a database and available for use in Spreadsheet. Easily generate reports and statistics from survey responses in near real time.

Survey Interface - with progress indicator

## User Experience

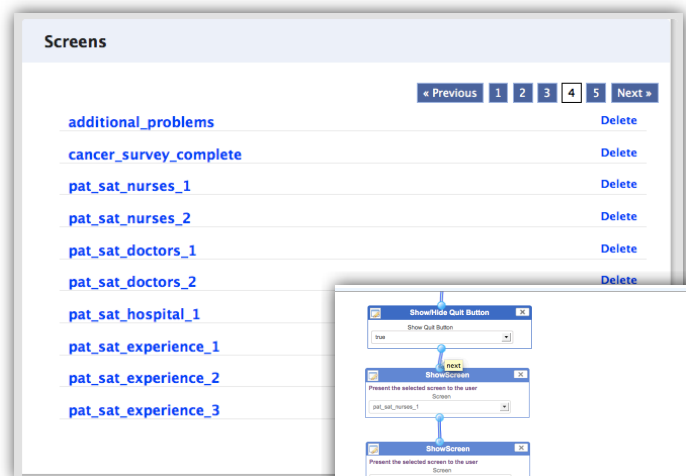

With PatientWay Kiosk Surveys patients easily answer a series of patient satisfaction questions, which are tracked and recorded in a database. Statistical information is gathered and reports are generated based on the feedback from your patients.

## Editing Surveys

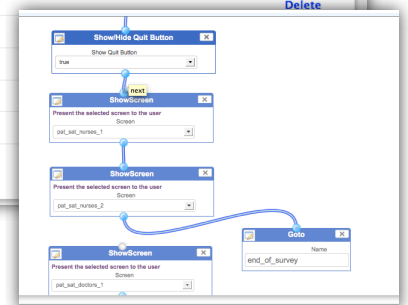

With PatientWay Surveys you create and edit your surveys through the administrator interface. At any time, your staff can change the order and content of questions by using our Visual Screen Flow Editor. Multiple surveys can be created and displayed on kiosks at a given time, giving you limitless flexibility in survey design.

## Real Time Data

The ability to collect data in Real Time allows you to respond to unsatisfactory experiences immediately.
